About ISVE , Ranchi:
Indian Society for VLSI Education (ISVE) is registered (Act21, 1860) non profitable society dedicated to serve the nation. The society provides continuing technical education programmes for human resource development. It is committed to innovative research, publications in recent trends in electrical, electronics, computers, communications, environmental, biomedical & space engineering. The main aim of the society is to train the manpower for electronic system design and manufacturing with the help of organizing the workshops, short term courses, symposia and conferences etc.

About the College:
Matrusri Engineering College, Saidabad, Hyderabad, Telangana, was established by Matrusri Education Society in 2011 aiming at becoming a pioneer in Technical Education in the private sector. The college offers courses in Civil Engineering, Computer Science and Engineering, Electronics and Communication Engineering, Electrical and Electronics Engineering, Information Technology, Mechanical Engineering, Computer Engineering and Computer science and Engineering in Data Science. The Institution is accredited with NAAC A+ and all the eligible UG programs in engineering have been accredited by NBA. It is an ISO 9001:2015 certified Institution. The college runs with a team of highly qualified and experienced faculty members and state of the art equipment in all departments.

About the program:
The main objective of this program is to inaugurate the ISVE Zonal Centre for Telangana, Andhra Pradesh and Tamilnadu states at Matrusri Engineering College by conducting an Outreach program on chip designing and Computational Intelligence. This Program provides a platform to spread awareness on VLSI education. The ISVE Society through its zonal centre, would like to bridge the gap between industry and academia for organizing the workshops, summer/winter schools, short term courses, conferences, symposia and seminars by which students, research scholars, faculty and scientists come together, work together and share their knowledge in recent developments in VLSI engineering, science & technology.

Target audience:
Academic faculty, Persons from Industry, Research scholars, PG and UG students who have a strong focus on VLSI and allied fields.
